

BELL EXPECTED DEFEAT IN SAN FRANCISCO

SEATTLE, Wash., Aug. 13.—Theodore A. Bell, worthy grand president of the Fraternal Order of Eagles and leader of the Anti-McNab forces of the Democratic party in California, commenting on the reports of the California primaries, said:

"The victory of the McNab forces was entirely within the city of San Francisco. We put no delegates in nomination in the State at large so the report that the McNab forces had been exceptionally busy since the Fresno convention in most of the counties is meaningless. I was as much a regular outside of San

Francisco as McNab himself. Our defeat in San Francisco was not so much a surprise as it was a disappointment. In view of the fact that the McNab forces had been exceptionally busy since the Fresno convention in most of the counties is meaningless. I was as much a regular outside of San

Indictment in Gould Case

NEW YORK, Aug. 13.—The grand jury today found indictments accusing Mrs. Benjamin Teal, Harry M. Mousley, a private detective and Julia Fleming, a seamstress, of attempting subornation of perjury in inducing

Mabel Maccausland to give false evidence against Frank J. Gould in divorce proceedings brought by Mrs. Gould. All the defendants are at liberty on bail on the charges made by the district attorney. They will be arraigned to plead tomorrow.

TONY PASTOR IS NEAR DEATH

NEW YORK, Aug. 13.—Tony Pastor, widely known as a theatrical manager, is seriously ill at his home at Elmhuysen street. It is feared he cannot survive the day.

Pastor's illness is the result of a general breakdown, said to have been caused by worry over his business, which it is said was not profitable of late. He did not take to his bed until last Monday. For the last two days he has been in a semi-conscious state and his wife has constantly remained at his bedside. Pastor, a 78 years of age, has been married twice, having one son by his first marriage.

MURDERS HIS OWN SON

REGULARS HAVE BEST MAJORITY FOR MANY YEARS

and Daughter With Ax

All Are Now Scrambling to Get on the Senator Perkins' Band Wagon---His Election Is Now Fully Assured.

(Special to THE TRIBUNE.)

SAN FRANCISCO, Aug. 13.—The claims of the Lincoln-Roosevelt League regarding the State Legislature are absolutely without foundation. The returns show that the regular Republicans of California will have a larger majority in the Legislature than they have ever had at any previous session.

Senator Perkins' fight for re-election is in better shape at the present moment than it ever has been at so early a date during any of his previous contests. As an illustration of how hard pressed the Lincoln-Roosevelt Leaguers are in attempting to show legislative strength, no stronger evidence could be furnished than to cite the fact they are claiming Senator Ben Rush of Solano county. Senator Rush has been openly for Senator Perkins from the moment his candidacy for re-election was first announced.

Solano County for Perkins

Solano county will unquestionably instruct for Senator Perkins at the convention to be held Saturday. No county in the State has as much reason to give Senator Perkins enthusiastic support as Solano county, particularly in view of the fact that the senior United States Senator from California will be the chairman of the Senate committee on naval affairs.

The leaguers are also claiming George S. Walker of Santa Clara, who claim causes organization men to smile. They also claim E. K. Strobbridge of Alameda county. Strobbridge supported the regular ticket in the Forty-sixth district. The league had an opposition ticket in this district, which ticket was badly defeated. John W. Stetson of Oakland is also claimed as one of the leaguers who will oppose Perkins.

Stetson Pledged to Perkins

During the last session of Congress Senator Perkins received a letter from Stetson pledging himself to vote for his re-election. Many of those claimed by the league have lost no time in sending word to Senator Perkins that they will be for him. There appears to be a determined effort to scramble aboard the Perkins band wagon. One of the most important factors in bringing about such a strong Perkins' sentiment is the knowledge that if re-elected he will secure the most important committee assignment ever obtained by a member of Congress from the Pacific Coast.

Means Much to This Coast

The death of Senator Allison will result in the promotion of Senator Hale, now chairman of the Senate committee on naval affairs, to the chairmanship of the committee on appropriations. Senator Perkins is ranking member on the committee on naval affairs, and will consequently take the place of Senator Hale as chairman of that committee.

The growing commercial importance of the Pacific ocean makes the naval committee the most important to California of all congressional committees, and to fail to take advantage of this great opportunity, which opportunity would be lost should Senator Perkins not be re-elected, would be a calamity.

Government Men Stop Raging Fires

CRANBROOK, B. C. Aug. 13.—The Sullivan Mine building and compressor plant near Kimberly are now safe from forest fires that have been burning in this district. An area of fifteen miles long and four miles wide has been burned over.

Fire near the St. Eugene Mission was stopped by government employees. The timber loss in the Kootenai district is very heavy.

Burglars Chloroform a Family

WIFE HEARS HUSBAND'S GROANS

Porchlumber Drugs Man and Wife in West Berkeley in Desperate Attempt at Robbery.

A man and his wife were chloroformed in West Berkeley last night by a burglar who entered their home. The man was found lying on the floor, and the wife was found lying on the floor, both with their eyes closed. The burglar was found in the porch, and was taken to the police station.

It was William Smith's home at 1213 Taylor street that the burglar entered. Smith and his wife were both heavily chloroformed and doctored and neighbors had to work over the man before they could bring him back to consciousness. Wife Awakened.

Remarkable Incident.

A remarkable feature of the case is the fact that on Tuesday night Smith and his wife awakened to find a masked burglar in their room. On that occasion the man had entered by climbing the front porch and prying a window opening into the bedroom. When he saw that he was discovered he jumped through the window and succeeded in escaping before Smith, who had grabbed a revolver could fire. It is supposed that the burglar returned last night and was determined to drug his victims to force him to bring disturbed in his search of the house by their awakening.

When Smith last night saw the robber again escape he ran to the neighbors and gave the alarm. A number rushed into the house where they found that Mrs. Smith, after the first excitement, had lapsed into unconsciousness from the effect of the chloroform. Smith himself had been so powerfully drugged that he was unable to do anything to save his wife. The entire police force of Berkeley has been detailed on the case and every possible endeavor will be made to capture the robber.

FAY TINCHER

AM I MRS. OR MISS? IS THIS LADY'S QUERY

Fay Tinchler, Well Known to Oakland Theater-Goers, Is Bothered by a Joke.

NEW YORK, Aug. 13.—Miss Fay Tinchler, of Mrs. Edward Buckley, of 'The Merry Go Round' company, does not know whether she is married or not. The young woman went with the company to Boston on the 5 o'clock boat yesterday. She was booked as Miss Tinchler, but she said tearfully she feared she married Ned Buckley on a dare last week.

Ink Fiends Again at Work

Two San Francisco Society Women Have Their Costly Gowns Ruined on Van Ness Avenue.

(Special to The Tribune.) SAN FRANCISCO, Aug. 13.—The ink thrower has again made his appearance in the fashionable retail shopping district and two very indignant matrons and what is yet more terrible, two ruined \$75 gowns, are the result. It was yesterday afternoon at Sutter street and Van Ness avenue, the very busiest of the business corners that the ink fiend chose to do his work.

ATTEMPTS SUICIDE

BEATEN BY CRAZED BY WOMEN THUGS RELIGIOUS MANIA

Used An Axe on His Children.

Boy's Head Was Completely Cut Off—Daughter's Head Cleft in Two—Wife Escaped.

LOS ANGELES, Aug. 13.—A terrible tragedy was enacted here this morning, when H. J. Dufty, 60 years of age, driven desperately insane by a religious mania, attacked his son and daughter with an axe, killing both of them, and then cut his own throat with a razor, inflicting injuries from which he will probably die.

The tragedy occurred about 8 o'clock this morning in the extreme northwestern part of the city. Dufty lived at the home of his son, Fred Dufty, at 247 North Mountain View street.

Insane From Religion

He had been on the verge of violent insanity for weeks from religious enthusiasm. He was a member of Peniel Hall, a local religious organization, holding night meetings on the east side. Last night Dufty attended a religious meeting and worked himself into almost a frantic frame of mind with religious ardor.

Had a Blood Lust

When he arose this morning at the house of his son, he was suddenly seized with a desire to kill. Going to the rear of the house, he selected a sharp-bladed axe, with which he returned to the house. Entering stealthily the bedroom of his son, where the latter lay asleep, he crept close to the side of the bed and, raising the weapon aloft, brought it down with terrific force across the neck of the son.

Severed Boy's Head

The blow was delivered with such tremendous force that the head of the victim was severed completely from the body and the blade of the axe sank into the bed. The dismembered body spurted blood all over the room. With a maniacal cry, Dufty rushed from the house and down the street.

LEAGUE'S VICTORY IN THE COUNTY IS AN EMPTY ONE

Only Judges Will Be Nominated at the Convention--They Have Been Pledged Support and Direct Primary Will Make Useless Control of County Committee.

The returns from the primary election from Alameda county were completed last night. The figures show that so far as the supervisory contests are concerned, Supervisor Fred Forner is really the only one who is absolutely safe for re-nomination.

Supervisor Rowe, however, has a splendid chance of being re-nominated and his friends are making an active canvass in his behalf. His ticket carried twelve delegates in the Seventh Ward and with the assistance of those in the Fifth district and Berkeley, Mr. Rowe can be nominated. His friends are now actively working on this line.

MULLIN'S POSITION.

In order to be nominated, John F. Mullins, who was successful on the Mott ticket in the Forty-ninth district, will have to have the support of the delegates in the Fifth district. Mr. Mullins is serving as councilman from the Third Ward and has made an excellent record as a city official. His friends are actively in the field today seeking delegates to his behalf so that when convention day comes around his nomination will be assured.

REGULARS CARRIED WARD.

The returns from the Seventh Ward show that the regulars won six delegates out of twelve delegates while the opposition took twelve delegates from North of Fourteenth street, but the truth of the matter is that the regulars would have won the entire ward had not a division been run along Fourteenth street. The regulars carried the entire ward by 150 majority, but because of the divisions of the district the opposition was enabled to secure the twelve delegates.

LEAGUE IN CONVENTION.

The county convention will be organized by the league delegates. They will have 150 delegates against the regulars. In view of the fact that the only county officers to be nominated are the incumbent Superior Judges, the victory is a barren one. While the league will name the new county central committee, the importance of this governing body will disappear with the enactment of a direct primary law, which the Republican party, through the State platform adopted at San Francisco, is pledged to enact at the coming session of the legislature.

EFFECT OF DIRECT PRIMARY.

Under the direct primary law the county committee can make no appointment advantageous to any faction of the party, the direct primary providing that candidates must be nominated by a direct vote of the people. The only function, therefore, of the new county committee, will be to raise money for the campaign, and as most of the candidates will be regulars this is gratifying to those who have heretofore been obliged to rustle for the sinews of war.

JUDGES ARE SAFE.

The Lincoln-Roosevelt League has pledged its delegates to the three incumbent superior judges so that there is no contest for these nominations. In view of the fact that the legislators from this county will be for Senator Perkins; that Congressman Knowland will have complete control of the congressional convention from the Third district, thereby naming the congressional committee; and that the county committee will practically amount to nothing during the campaign two years hence, it is becoming apparent to some of the wise league leaders that their alleged victory in Alameda county is a gold brick. The State has gone overwhelmingly for the regulars and those who made the fight for the organization in this county are in a better position in national and state politics than those who won a partial victory.

THE CONGRESSIONAL TICKETS.

The tabulated returns published with this article show that the regulars on the state and congressional ticket carried the Forty-sixth, Forty-seventh, Forty-ninth and Fifty-first Assembly districts, one more district than they carried in the May primary, having lost the Forty-ninth in that contest. Congressman Knowland lost but one Assembly district where there was a contest, the Fifty-second. In the Forty-eighth district there was no contest for congressional delegates, an agreement having been reached regarding congressional committee-men. This was likewise true in the Fifth district. This gives Mr. Knowland control by an overwhelming majority.

WHAT BERKELEY GETS.

Berkeley league are endeavoring to get out what there is to gain by delivering overwhelmingly to the league. They furnished the votes, but the Oakland league are taking all the offices. For many months Berkeley has been demanding a supervisor, and blaming the regulars for failing to comply with the demand. Now that the league is in control of the situation, Berkeley is to get nothing. While it

is a part of two supervisory districts both supervisors will come from Oakland. Berkeley is also in the Fifteenth Senatorial district, but in nominating a Senator they will receive no more consideration than they are receiving in the supervisory matter.

CAN NAME ASSEMBLYMAN.

The Oakland league leaders will compromise with Berkeley by allowing them to name the assemblyman from that district. In view of the fact that practically all the assembly delegates in the Fifty-second district are from the college town. The regulars will control the next Legislature by an overwhelming majority, and the fact that Berkeley went overwhelmingly to the league will be of no particular benefit in obtaining appropriations for the university, although there is no disposition on the part of the organization to handicap the State University, even though objection is made to that institution being in politics.

SHOW GIRL WILL NOT WED

Pretty Hattie Forsythe, Friend of Evelyn Thaw, Denies Engagement to Millionaire.

NEW YORK, Aug. 12.—"My part in 'The Soul Kiss' last winter was nothing like as trying as the stunt I am doing now," declares beautiful Hattie Forsythe, show girl and Broadway favorite and incidentally friend of Evelyn Thaw as she stamps her pretty foot throws herself into a chair and looks disconsolate.

"That something, as you probably know, is the thing of daily hourly and almost momentary denying that I am engaged to young Anthony J. Drexl Jr. of Philadelphia.

"Mercy goodness! Do I look like a child stealing? I do look like a child stealing, straightening herself up and laughing heartily, albeit with ill concealed irritation.

"Why, the boy is still going to school. He is enrolled at the celebrated English school. Yet, because he happened to come over with me the other day on the same steamer, Kronprinz Wilhelm, and because I am civil to him, I would have been to any other bright boy who was introduced to me every body is saying now that I am engaged to him and they have already framed up for us a romance which is lacking in absolutely nothing—excepting that there is nothing to it."

And once again the beautiful Miss Forsythe stamps her pretty foot and looks disconsolate.

There is no intent on stirring up a riot among the bluebloods of Philadelphia, she declares, "and you know what it would mean if it were actually true that one of the Drexl crowd were about to marry into stageland. Oh, fury—and then some."

On resulting Chicago, Dr. Fitzgerald hired Pinkerton detectives to make every effort to find the young woman, declaring that she was of age and that her father had no right to hold her for a prisoner against her will.

WIRE SHE HAS ESCAPED

Ethel Ludwig Hasting West to Become Bride of Professor Fitzgerald—Father to Help Her.

PALO ALTO, Cal., Aug. 13.—Prof. F. Fitzgerald has returned from Chicago to the home of Otto Ludwig, the father of Ethel Ludwig, who was taken away by her mother just as she was about to be married to the young professor.

Fitzgerald refuses to discuss the case further, than to say he expects his fiancée and her mother to return from the Pacific coast to the young professor.

The father of Miss Ludwig is said to favor her marriage to Fitzgerald and it is stated she received a telegram from her father to the effect that she had escaped from the virtual custody of her mother and was hastening west.

There is talk of a reconciliation when she arrives here and a happy marriage as the sequel of the affair.

Prof. Fitzgerald reached Chicago on August 6 prepared to go to the home of his friend, Mrs. Ludwig, who had consented to the marriage, which was to have taken place the following day.

But at the train the young man was met by a Mrs. Bray, aunt of Miss Ludwig, who calmly told him to board the next train and leave Morris as fast as he could, reconsidered the marriage and had voided it down.

Dr. Fitzgerald objected strenuously but the aunt was obdurate. He demanded that he be permitted to see Miss Ludwig, but this was refused by her mother, so he compromised by going to a hotel, saying that he would see his intended the following day.

At midnight, however, Mrs. Ludwig broke in upon these plans by forcibly placing her daughter in an automobile and driving her out of the city.

The young woman screamed but was overcome. Dr. Fitzgerald was aroused and within an hour was on the trail of abductor and abducted. He traced the party to the city where it was declared they had boarded a train for Chicago.

The pursuer boarded the next train and reached the city a few hours later.

MISS ETHEL LUDWIG, The Stanford Co-ed, Who Was Kidnapped by Her Mother to Prevent Her Marriage

Chicago, which he anticipated would be a honeymoon but which terminated so differently when he arrived in San Francisco. Prof. Fitzgerald reported at Cooper Medical College and was notified to be prepared to examine a class in chemistry next Thursday.

Then the professor went to Palo Alto to talk his experiences over with his friends. He was consoled by Ludwig and told to wait and have hope.

The friends who had cheered him the night before he left for Chicago rallied about him. It broadened his nerves.

Prof. Fitzgerald is a graduate of Stanford University of the class of '04. He returned to the university at 19 to look a post graduate course and later was given the position of professor of chemistry at Cooper Medical College, where he has taught for two years.

At midnight, however, Mrs. Ludwig broke in upon these plans by forcibly placing her daughter in an automobile and driving her out of the city.

WRIGHT HAS ANOTHER ACCIDENT

Aeroplane Is Injured in New Style of Descent and Further Tests Will be Delayed for Several Days.

LITMANS, France, Aug. 13.—The Wright aeroplane suffered an accident this morning which will require several days and possibly more work to repair.

After two superb flights with Wright essayed a new and daring method of descent. He stopped the motor at a height of seventy-five feet and tried to come to earth on a gradual descending glide.

The calculations were not absolutely correct and the wing of the aeroplane came in contact with the ground. This tore the frame of the machine. Mr. Wright was not injured.

ACCIDENT NOT SERIOUS. He said he did not regard the accident as serious and explained that these were only incidental experience devoted to requiring complete mastery of the difficulties of a new maneuver.

According to the official time he was in the descent minutes and fifty-three seconds. The aeroplane encountered a fifteen mile breeze but in spite of this Mr. Wright displayed greater facility in maneuvering than he did when he was a lead balloon.

'FRESHIES' ARE SHOWN THEROPES

Intrants at U. C. Taken Care of by Large Corps of Workers of the Young Men's Association.

BERKELEY, Aug. 13.—With a corps of forty upper classmen, the Stiles Hall Y. M. C. A. workers of the University of California began the work of receiving the incoming freshmen Wednesday afternoon. Boarding in the summer, as the intrants find their credentials with the recorder, handbooks were sent to them from the hall, and it is these which are now serving to bring large numbers of the new students to the Y. M. C. A. headquarters.

As the freshmen comes from Stiles hall, they are received by the committee headed by Harold Savage, president of the junior class, and a member of the Los Angeles club.

It is given a list of prospective boarding houses, and a member of the committee is assigned to show him around the city—and incidentally, find out about his past records along athletic lines. After he is located, the guide invites him to the jolly, and goes back to Stiles hall for another freshman.

The first jolliv will be held tomorrow night. Saturday the first big affair of Stiles hall will be held, when the freshmen will be formally introduced into the social life of the city. The jollies are necessary to a proper reading of the California "Oski" and the college songs.

TO ADDRESS FRESHIES.

President Wheeler has consented to address the freshmen on that occasion, and it is probable that Warren McKibben, president of the A. S. U. C., and other prominent university men will be present to assist in making Californians of the intrants. The boarding house list, and the employment bureau, conducted for the benefit of new students, is being managed by Clyde Brand, a member of the Alpha Omicron fraternity, a social leader, a prominent varsity basketball player, and a member of the Winged Helmet society, has charge of the blue study class.

Alameda Negro, While Despondent, Calmly Tries to End His Life.

ALAMEDA, Aug. 13.—Charles Lambert, a negro, engaged to do odd jobs about the city, attempted to commit suicide by taking carbolic acid this morning. Word was sent the police by a man living on Blanning avenue, and the ambulance was summoned. Dr. Riley was also called on the scene, and succeeded in saving his life. As Lambert was practically out of danger by the time the ambulance arrived, it was sent back without him. The man is now at his home and is expected to recover, although he was badly burned by the acid.

Lambert arose from a bed this morning, and went into another room, where he took a small place on Harrison avenue, between Park and Everett. His wife was in the room, and in her presence he took a small bottle of carbolic acid and drank it. Then he went to his wife's side, and handing her his pocket-book, said: "Take it; I shall not want it any more." The woman was terrified, and at once notified the neighbors.

WOMAN TO FIGHT FOR HER DOGS

Mrs. Marie Del Mar of Alameda Refuses to Obey Edict of "Mean Board of Health."

ALAMEDA, Aug. 13.—"My pets are just as well behaved as any can be, and the mean Board of Health shall not make me move away with them," said Mrs. Marie Del Mar of 2615 Santa Clara avenue yesterday, when notified by City Physician Stidham that she must get rid of her pet canines. Mrs. Del Mar says that she will go to law over the matter before she obeys the order of the health board.

Sanitary Inspector Mallott says that the dogs make the premises unsanitary and says that his attention was called to the premises through an anonymous letter.

ROOF ON SCHOOL CAUSES TROUBLE

Berkeley Board of Education Is in Quandary Over New Building.

BERKELEY, Aug. 13.—The question of the roofing of the new Polytechnic High School building is troubling the board of school trustees. The Stockholm and Allyn Company has the building contract, which calls for a slate roof. For some time past the John MacFarlane Company of San Francisco has offered to put on a roof of asphaltum for a contract of putting on asbestos instead.

The slate roof has not proved entirely satisfactory in other places, so that the board is not inclined to accept the offer. The board is now in a quandary, as the asphaltum roof is not as good as the slate roof, but it is not as expensive.

HOT CAMPAIGN IS ON TO DEFEAT SECESSIONISTS

Backfiring Being Resorted to in Berkeley.

BERKELEY, Aug. 13.—The two trustees and others interested in defeating the separation of East and West Berkeley have inaugurated a campaign of backfiring. Within the past week postal cards have been sent to every signer on the secession petition asking for the conditions under which the name was secured and what representations were made to the signer by the agent.

Efforts at securing statements from signers, according to reports received at the town hall, indicate that a large percentage of the voters represented on the petition are not in favor of an disincorporation of the town boundaries.

Over 200 replies have been received from men whose names appear declaring emphatically that in case the issue of secession is presented they will oppose it.

ROOF ON SCHOOL CAUSES TROUBLE

Berkeley Board of Education Is in Quandary Over New Building.

BERKELEY, Aug. 13.—The question of the roofing of the new Polytechnic High School building is troubling the board of school trustees. The Stockholm and Allyn Company has the building contract, which calls for a slate roof. For some time past the John MacFarlane Company of San Francisco has offered to put on a roof of asphaltum for a contract of putting on asbestos instead.

The slate roof has not proved entirely satisfactory in other places, so that the board is not inclined to accept the offer. The board is now in a quandary, as the asphaltum roof is not as good as the slate roof, but it is not as expensive.

Efforts at securing statements from signers, according to reports received at the town hall, indicate that a large percentage of the voters represented on the petition are not in favor of an disincorporation of the town boundaries.

SAYS JUDGE WAS NOT FAR

Sensational Trial of Fruitvale Merchant in Alameda Results in Disagreement by Jury—Technicalities Are Peculiar.

ALAMEDA, Aug. 13.—After a sensational trial on the charge of violating the liquor ordinance, involving several confusing technicalities, the jury in the case of M. Gaudier disagreed last night. The case hinged on several technical considerations as to the construction of the clause of the ordinance which prohibits the sale by restaurant keepers of liquors, except with hot meals, in a restaurant. A restaurant was defined in the ordinance as a drinking-room, in which hot meals were served at a table, and in which there was no bar. Assistant District Attorney Gaudier contended this clause meant that liquor could not be given with a hot meal except at a table. Attorney Bowen, for the defense maintained that the phrase "at a table" was simply a mere description of a restaurant, and did not mean that the liquor and the meals should be served at the table.

The dispute over this point was brought up by the fact that evidence was introduced by the prosecution to the effect that J. C. Hutchinson, a Deputy Sheriff, was served liquor with a chicken on June 21 last. Hutchinson testified that the chicken was given him to take out to the restaurant, together with other food, and a bottle of wine. The defense claimed that the chicken was not when given with the lunch, and the prosecution brought up testimony to the effect that it was cold. It was maintained by the defense that serving wine from the restaurant with a hot lunch did not constitute a violation of the ordinance.

EXPECTED UNFAIR TRIAL. While on the stand the defendant made the startling statement that he did not expect a fair trial from Judge Johnson, who was trying the case yesterday. In his cross-examination, Gaudier asked Gaudier if it was that he had been told that Judge Johnson was unfair and expected to plead guilty if he were given the minimum sentence.

"I said that I was guilty, so that I could escape the persecution which the judge was making me endure," said Gaudier. "When I was found guilty before for this same charge, I was really innocent, and did not receive a fair trial. I wanted to pretend I was guilty, so that Judge Johnson would give me a severe sentence. He did not give me a fair trial before."

District Attorney Gaudier said that Gaudier had entered his office some three days ago, and that he had been told by a friend that Judge Johnson was unfair and expected to plead guilty if he were given the minimum sentence. Gaudier said that he had been told that Judge Johnson was unfair and expected to plead guilty if he were given the minimum sentence.

Perkins the Popular Choice.

The result of the primary election is a sweeping endorsement of Senator Perkins. Everywhere the regular organization stood for him, and even in the few places where the league gained successes the successful candidates are more or less committed to Perkins. In Alameda county the successful league candidate for State Senator is an avowed Perkins man. So are two of the league nominees for the Assembly. Warren John, who won against the organization in the San Luis Obispo district is for Perkins, and so is Charles P. Cutten, the successful league candidate for the Senate in the Humboldt district.

In not a single county in the State did any legislative candidate put forward by the league declare himself openly against Perkins or announce that he favored the election of someone else to the Senate. In not a district did the coalition of prospective candidates make an open fight against the senior Senator, and not one of them even in his home county dared to put his candidacy to the test against Perkins' popularity.

Clearly Senator Perkins is the popular choice for Senator. By an overwhelming majority the Republicans of the State have expressed their desire that he succeed himself. A great body of the league voters joined the regular organization men in expressing this desire. In San Francisco the putative claims of Rudolph Spreckels were overwhelmingly repudiated. Likewise the inchoate candidacy of E. T. Earl was vetoed in Los Angeles. The Rowell candidacy in Fresno county has only one leg to stand on, and may be on crutches entirely before the season is over.

In Alameda more than one statesman has been rehearsing (in private) the part of a Senator, but they have modestly shrunk from trying conclusions with Perkins at the polls. One of them has ventured, it is true, to throw stones at the Senator in a newspaper controlled by him, but he never hoisted his own flag nor came out in the open as an antagonist. The truth is that the Perkins sentiment is too strong throughout the State to be successfully defied.

The Duty of Republicans.

The Republicans of Tennessee have split into Prohibition and anti-Prohibition factions, nominated separate State tickets and fought themselves for a bitter fight among themselves, leaving the Democrats to have things their own way. The split had its origin in the fight between the Brownlow and Hale factions for control of the Republican State organization. Unfortunately the National Administration took a hand in the row, throwing its influence in favor of the Hale wing, which up to that time had been unable to dethrone the Brownlow domination. Instead of promoting harmony this interference has provoked a still more bitter strife. There is a similar split in West Virginia, where two Republican candidates for governor have been nominated. But for the internecine conflict Taft would have a chance of carrying Tennessee. He has no such prospect now. The split in West Virginia threatens the loss of that State to the national ticket. These examples should admonish California Republicans not to waste their energies in factional strife in the face of the enemy. The Portland Oregonian states with positive significance that Oregon is doubtful under existing conditions, the Republican party there being torn by personal and factional dissension and divided into two hostile camps. Let us not imperil Republican success in California by recrimination and internal warfare. The business before Republicans is to carry this State for Taft and Sherman, elect a Republican Legislature that will return a Republican Senator to Congress, and re-elect the eight Republican Representatives to the Lower House. These are not factional or local propositions. They are questions of national policy and governmental control. They vitally affect the continued dominance in national affairs of the party of Lincoln, Garfield, Blaine, Harrison, McKinley and Roosevelt, and the perpetuation of those principles and policies for which the party has stood since its organization, and which have brought our country to its present pitch of power, peace, prosperity and progress. It is time now for Republicans to quit fighting each other and rally around the old flag and do their level best to roll up a big majority for Taft and Sherman and for the Republican representatives in Congress.

The San Francisco papers continue to refer to the contest between Feely and Borchert in the Forty-eighth district as a struggle for supremacy between the organization and Lincoln-Roosevelt wings of the party. Such was not the case. There was no measure of strength in the Forty-eighth district between the league and the organization. Feely is not a leaguer. He was agreed on as an Assembly candidate by the leaders of both factions, and was supported by the friends of Senator Perkins, as he had announced that he intended to vote for Perkins' re-election. Borchert is an organization man, but his fight in the primary was on purely personal and independent lines, and turned upon prospective candidacies for City Attorney and Supervisor in the municipal and county elections next March and two years hence. Borchert merely tried to break in on the district, but the old allied crowd easily held the works. The vote cast was in no sense a test of the strength of the regular and Lincoln-Roosevelt factions, since Feely was backed by the organization leaders of the district, and is both a Perkins and a Knowland man.

The suggestion that Taft's managers ignore Senator Foraker is lacking in wisdom. Foraker cannot very well be ignored. He has announced his loyalty to the Republican ticket, and signified his desire to render it all the assistance he can during the campaign. Why should his offer be rejected? To reject his aid and ignore him as a leading Republican in the State of Ohio will alienate support that is desirable and may prove necessary. To insult and drive away support tendered unconditionally is pure folly. It is not the kind of political management that wins battles.

Mr. Bryan takes several thousand words to say that he disagrees with Judge Taft and wants to be President himself. Next November several millions of American voters will tell Mr. Bryan in very few words that they are against him on both propositions.

STEALING HIS PLANKS

—NEW YORK HERALD.

The Multiplying Automobile Accidents

The multiplying automobile accidents are attracting wide attention, and have even had effect on the automobile trade. There has been a slight though appreciable falling-off in the sale of machines; and those chauffeurs who keep machines for hire have felt a marked dullness. It is explained that the first-mentioned effect is due to the sudden change of mind on the part of some who were on the eve of purchasing. Such intending purchasers who had not had experience with autos became timid, or were prevailed on by family or friends not to acquire a pleasure vehicle that so frequently turns out to be an engine of death. The chauffeurs find the same feeling to be responsible for the falling-off in their employment.

A casual analysis of recent disasters indicates in a degree their causes. Very few are due to pure accident. Most are due to mishaps that were not foreseen, but should have been. The particulars of those that are culpable are generally modified in the accounts, and it is impossible to judge their exact per cent., but the chances are it is larger than appears on the face of the records.

One thing to be taken into consideration is the change that comes over a man when he sets up a machine. He may have been as slow and careful as possible before, and at the outset of his automobile experience may have cautioned his chauffeur, or whoever first instructed him, to go very slow and be extra careful; but soon he gets the fever, lets out link after link, takes chances in mad races to pass others or avoid being passed himself, sells his machine every year and buys a new one to get the latest type, and takes on the general characteristics of a "road-burner." It seems to be the natural bent of all who take up automobilism.

Most accidents are due to taking chances. Under favorable, or possibly ordinary, circumstances nothing would have happened. But the extraordinary thing happens, as it has such a habit of doing, and disaster ensues. At least three of the fatal accidents of the week, which attracted so much attention, were due to taking chances. There was a new road not much favored by or known to autoists, and too narrow and steep; but the party driving the machine had unlimited confidence in himself. On the way something went wrong and then the dreadful result. A young girl, with a machine overcrowded, goes on a steep private road. The heavy machine acquires momentum, the brake is precipitately set and "fails to hold," and then the awful tragedy. A man at the wheel in the dark comes to a bridge and thinks it is a cross road. He does not make sure, but turns off, and finds too late that he deliberately runs off a bridge. The reckless party, male and female, out for a lark, and half intoxicated, is a well-recognized inviter of accident, and the self-confident party, often the man of mature years—the one who will be told nothing and who insists on his own way—is another. The dishonest chauffeur who steals his employer's machine for a night's frolic, having little feeling of responsibility and being enamoured of his own ability to drive, is the occasional motif for a first-class horror.

A large per cent of accidents is beyond question avoidable. Some might not have happened with better roadways. Automobilism has a tendency to inspire better road-building; but something practical ought to be done to get it into the head of every man, woman and child who comes into even temporary possession of an automobile and attempts to drive it, that nothing should be left to chance. Carelessness and recklessness have a better show to produce deplorable results with an automobile than with any other mechanical contrivance known.

The beer that made Milwaukee famous appears to have made George Van Smith of the Call a foolish political prophet. He has the most remarkable faculty of knowing things that "aint" so of any man in the State. That's what comes, however, of getting an untamed bock beer reporter from Milwaukee to do political stunts on a California newspaper. But come to think of it, the Call is not a newspaper.

Spreckels says he is sorry for San Francisco. Well, San Francisco is not sorry for him. The vast majority of the city's inhabitants wish he would go away and never come back, and take Honeys and Burns with him.

John A. Johnson freely gives his moral support to Bryan, but he resolutely declines to run for governor of Minnesota on the Bryan ticket. Johnson has lived too long in the Northwest not to know the signs of a coming blizzard.

Theodore A. Bell seems to have rung his own knell. That's the consequence of having a clarion voice and no balance wheel.

Now let us do something for Oakland. All together, now!

Korean Editor Escapes From Custody and Takes Refuge Under John Bull's Flag.

SEOUL, Aug. 13.—A novel situation has developed in the case of the Korean editor of the vernacular edition of the Daily News, who was arrested July 25 charged with complicity in the alleged disappearance of a portion of what is known as the Korean national loan redemption fund, which amounted to 250,000 yen. After a preliminary hearing the editor was committed for public trial on August 15.

CONSUL EMBARRASSED.

The Korean national loan redemption fund was originally collected partly with the assistance of E. T. Bethel's newspapers, with the object of paying the Korean national debt to Japan. It was asserted by Bethel's friends that the arrest of the Korean editor of the News was instigated by the Japanese because he was the chief witness in behalf of Bethel during the latter's trial.

Yesterday evening the Korean editor, who was seriously ill, was sent to a hospital. During the transfer he eluded his guards and went to Bethel's office. Bethel hoisted the British flag over his gate and refused to allow the police to enter or to surrender the prisoner, claiming for him extra-territorial protection.

The British consul, who has been embarrassed by Bethel's action, is conferring by cable with Ambassador Macdonald at Tokio as to what course to pursue.

Drouth Is to Make
Saurkraut a Luxury

CHICAGO, Aug. 13. — Saurkraut will be a luxury that will find favor with the wealthy next winter, if the intentions of the National Kraut Manufacturers' association are accomplished.

At the annual meeting of the Kraut Association held here yesterday, reports were made to the effect that the excessive drouth had damaged the output to such an extent that a crop shortage is a certainty. The executive officers will determine the feasibility of increasing the price of the output. It was the opinion of the delegates that a slight advance was necessary.

W. W. Wilder, of Clyde, Ohio, presided at the meeting.

is in a certain sense a proof of its merit, of its fitness to survive. But when the bank has kept pace with the years, moving steadily forward and upward in the front of the procession, the proof is still more positive.

The First National Bank of Oakland was organized when General Grant was President, and only five years after the Central Pacific Railroad was completed. For thirty-four years the bank has served the business public of Oakland and it will continue that service for generations to come. The bank is fully equipped to handle the accounts of individuals, firms or corporations.

BLOWS ON JAW ARE CAUSE OF SEVERE TETANUS

Young New York Man Has Peculiar Affliction—Mouth Partly Open.

NEW YORK, Aug. 12.—Phillip Tully, 24 years of age, entered the receiving office of Bellevue Hospital last night and by motions indicated that he was suffering severe pain about his head and jaws. He appeared unable, to speak and his jaws were locked, partly open. Dr. Leroy questioned the man and with a pencil and paper the latter answered questions.

He said that he attended a dance at New Dorp, Staten Island, about two weeks ago. He was attacked by two thugs, he wrote, and was struck over the eye with a blunt instrument that inflicted a lacerated wound. He left the dance hall and went home without medical treatment.

Yesterday he was unable to move his jaws and had severe pains in his head. Dr. Smith said the man was suffering from tetanus and that germ of the disease had developed in the wound received in the dance hall. The physician succeeded in feeding him by an artificial process. Small hope is entertained for his recovery. The police are seeking his assailants.

Chronic Diarrhoea Cured.

"My father has for years been troubled with chronic diarrhoea, and tried every means possible to effect a cure, without success," writes John H. Zirkle of Phillips, W. Va. "He saw Chamberlain's Colic, Cholera and Diarrhoea Remedy advertised in the Phillips Republican and decided to try it. The result is one bottle cured him and he has not suffered with the disease for eighteen months. Before taking this remedy he was a constant sufferer. He is now sound and well, and although sixty years old, can do as much work as a young man."

RAIN FALLS IN IDAHO AND PUTS OUT FIRES

WALLACE, Idaho, August 12.—Rain, which began falling about 8 o'clock last night, was a godsend to forests of Shoshone county, and there is little doubt that danger of forest fires will be over in a day or two. Even before the rain began the forest department had all fires well under control, being aided by the cool weather of the last two days and by the fact that there has been no wind in the mountains.

FIRES DESTROY MANY GRAIN AND HAY FIELDS

Hard Times Cause of Epidemic of Wife Desertion in New York

NEW YORK, August 12.—Hard times are the cause of a widespread epidemic of wife desertion in the poorer districts of the city, according to reports turned in by the visitors of the Children's Aid Society. In the instance cited by Mrs. Edith McArthur, the visitor of the East Eighty-eighth-street station, the primal instinct of the survival of the fittest is responsible for the epidemic.

"Conditions in my district are really so terrible," said Mrs. McArthur, "that I believe that if work is not forthcoming immediately for the men the whole neighborhood will degenerate into a condition which will shock New York. The sufferings the people have been through and which many are still experiencing are having a bad emotional effect. The instinct of self-preservation is becoming stronger with the men than their love for wife and children."

TWO BOYS STEAL \$1700 FROM RED BLUFF P. O.

CHICO, Aug. 12.—James Mulloney and Alton Downer, fourteen years of age, confessed that they stole \$1700 in checks from the postoffice box of the Bank of Panama County at Red Bluff, Sunday afternoon. The boys were arrested here Tuesday night for a local burglary and yesterday morning a pocketbook containing the lost checks was found on the City Hall lawn, where it was cast last night by the boys while in the custody of officers.

Davison of No. 379 Glenwood avenue, San Jose, Cal., says: "The worth of Electric Bitters as a general family remedy, for headache, dizziness, and torpid liver and bowels is so pronounced that I am prompted to say a word in its favor, for the benefit of those seeking relief from such afflictions. There is more health for the digestive organs in a bottle of Electric Bitters than in any other remedy I know of." Sold under guarantee at Oakland Brothers' drug store, 506.

PRIEST IS IN FEAR OF DEATH

Threatening Letters Which Make Him Want to Leave the Country--Appeals to Police.

NEW YORK, Aug. 12.—Asserting that he has been driven from city to city by person threatening his life until he fears that he must leave the United States, the Rev. Michael Servellus, a Polish priest, of Newark, N. J., appealed to the police of that city for protection and fled aboard a steamer bound for Europe. He was recently engaged temporarily to the Holy Trinity Catholic Church in Newark, and hardly had been established there when he received one of the letters that has been troubling him. Father Servellus turned over to the police three letters which he has received during the last three weeks.

The first came while he was stationed in Brooklyn and he then went to Elizabethport, N. J., where another letter reached him. The last came to him when he went to Newark. The priest told the Newark police that while he was stationed in Brooklyn a few weeks ago he was attacked by two men, who seized him by the throat and demanded \$1000 from him. Since he has been Newark, a little less than a week, he feels sure he has been followed constantly.

'HOME RULERS' CONTROL ALASKA

James Wickesham's Plurality Is Now More Than 1365--Railroad Vote a Feature.

SEATTLE, Wash., Aug. 12.—A special message to the President from Fairbanks says that James Wickesham has a plurality of 1365 which can overcome even though there are many precincts yet to be heard from. He carried all three divisions of the Territory. The sensation of election day was the voting of the railroad laborers at Cordova, where the Guggenheims are building a railroad. All 2000 Cordova had only a few score ballots and just before the vote, 925 votes cast of which 700 were for Conson.

Throughout the entire district there is great jubilation over the fact that all the candidates were pledged to a territorial form of government and as Wickesham is the foremost champion of home rule the government at Washington will not likely give its ear to the protests of Governor Hoggatt in this regard any longer.

Some of the precincts in Alaska will not be heard from for 30 days but there will be less than 1000 votes come in from these outlying districts.

CUNARD LINERS NOT TO STOP AT QUEENSTOWN

Will Pass Port to Get Mails to London.

NEW YORK, Aug. 12.—It was stated yesterday on the best authority that commencing with March sailings in 1909, the Cunard liners would cut out calling at Queenstown and run to Plymouth and Cherbourg still making Liverpool the home port as heretofore. The change has been decided upon. It was said, after long consideration to expedite the delivery of mails in London and also to enable the Cunard to get its share of the continental first-class passenger traffic in competition with other lines.

PHILIPPINE VETERANS TO JOIN SPANISH WAR BODY

Two Organizations Have Been Amalgamated.

MANILA, Aug. 12.—The Veterans of the Army of the Philippines, now assembled in convention in this city, have unanimously endorsed a proposal to amalgamate the island organization with the United Spanish War Veterans of America, in compliance with an agreement recently entered into at Washington, D. C.

Colonel Harcourt, of the Philippine Constabulary, was elected Department commander of the convention. Resolutions adopted by the convention endorse the administration of President Roosevelt and also that of Governor-General Smith.

Andrew Jackson, 7th President of the United States.

ENERGY of character—this is the first essential of all Human Greatness, and General Jackson, one of the most picturesque figures in history, possessed it in plenty.

Of Scotch-Irish lineage, and a fighting man to his finger tips, the strategy of "Horse Shoe Bend" proved that he understood the art of war, but it was the battle of New Orleans that made him president.

He was a great lawyer, a bold statesman; had a clear head for business, and nothing could daunt him nor break his purpose. All his life he drank the generous creative juices of the malt.

And who will dare say that it weakened his will power or detracted from his success, his fame, his glory, and his might.

WOULD UNITE ALL THE CITIES ABOUT THE BAY

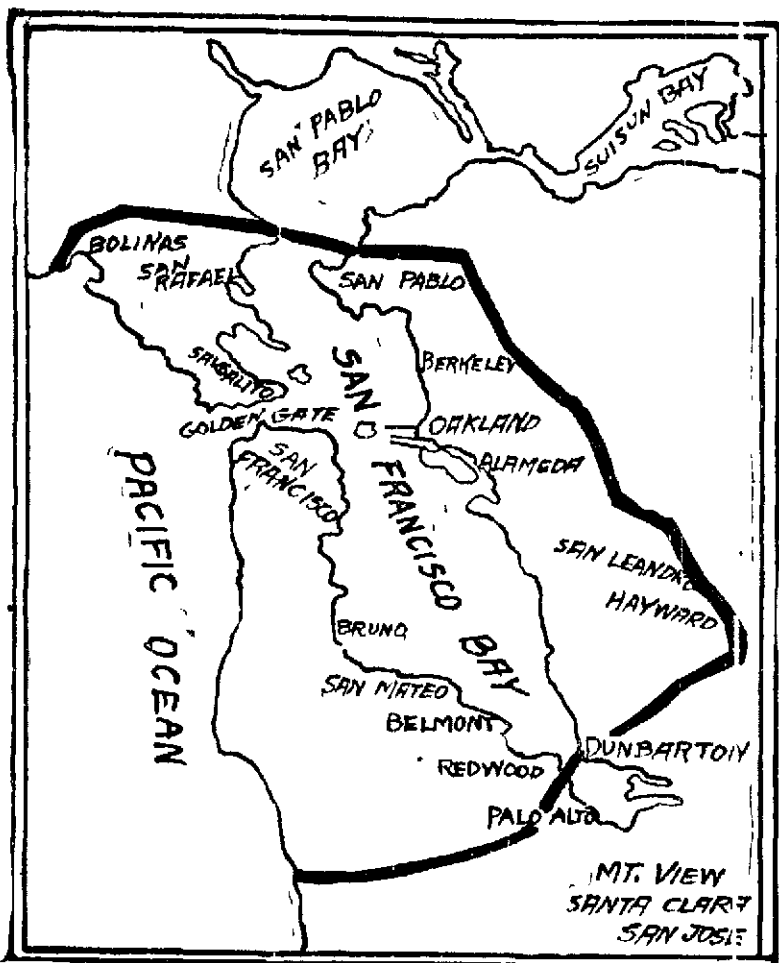

IMMENSE BOROUGH GOVERNMENT IS PROJECTED

Committee on Boundary Lines at
Meeting in San Francisco Con-
sidering Consolidation.

From S. F. Examiner, Aug. 13, 1908.
Work on the project of uniting the
entire bay cities to make a Greater San
Francisco that will be fourth of the
American municipalities in point of popu-
lation and importance has been actively
resumed. The committee on boundary
lines yesterday held its first session and
outlined a vigorous course of action.
The present plans call for a govern-
ment similar to that of Greater New
York, the outlying districts being or-
ganized into boroughs each having au-
thority to govern itself in minor matters,
but being affiliated with the great munici-
pality in the control of public
utilities, and the adoption of laws of
mutual benefit.
One of the more important benefits
will be the requirement of a water sup-
ply that will meet the needs of the en-
tire district at an economic figure.

BOUNDARY LINE QUESTION.

Last April the boundary committee
reported tentative plans for the bound-
aries of Greater San Francisco and
copies of these were forwarded to orga-
nizations and people interested with the
request that all objections to the plan
should be forwarded to the committee
but one objection was received, and that
was to having the boundary line run
100 feet east of the boulevard running
south from Oakland to Hayward. It was
suggested that the roadway be made
the boundary line. This matter was re-
ferred yesterday to a sub-committee con-
sisting of L. V. O'Brien and F. M. Wil-
son, of Alameda county.
The proposed boundary line commences
at a point on the seashore opposite the
head of Bolinas Lagoon touching the
city and continuing directly to the
upper end of Red Hill. From the latter
it will run to the tunnel just north of San
Tara on the Northwestern Pacific
and then to San Pedro Point and
cross the bay to Wild Cat creek follow-
ing its junction to the San Pablo coun-
ty line. It will follow the latter boundary
line between Alameda and Contra Costa
counties and along the Grizzly Lake

MAP SHOWING CITIES AND TOWNS IN THE PROPOSED
GREATER SAN FRANCISCO.

Then it will follow the line of the hills
east of Oakland southward to the Oak-
land and Hayward border.
MEETING TO BE HELD
The line is to extend in such a man-
ner as to include San Leandro and Hay-
ward running as far south as Coyote
creek the present southern boundary of
Alameda county. Following this line the
will go to Dumbarton Point, and crossing
the bay at that place take up its course
toward San Francisco creek the pre-

sent boundary between San Mateo and
Santa Clara counties. The line will fol-
low the creek to a convenient point from
which it will run to a point on the beach
six miles south of Halfmoon Bay.
Among the more important cities and
towns to be included in Greater San
Francisco are San Rafael, Berkeley,
Oakland, Alameda and Palo Alto. A
mass meeting is to be held in Berkeley
August 25th to discuss the proposed
consolidation.

BLACK HAND MURDERS VICTIM ARE LED BY THE MAORI WOMEN

Sends Letter Written in Blood
as Decoy and Hotelkeeper
Is Horribly Stabbed in
Murderers' Field.

NEW YORK Aug. 13.—Ambushed in
a lonely spot known as 'Murderer's
Field' on the Lincoln road in the Flat
bush section of Brooklyn, late last
night, Pietro Barilla, a well-to-do
hotelkeeper of Woodhaven, was at-
tacked and killed by a number of men.
Barilla is thought to have gone to the
place to keep an appointment with a
letter was found on his person seem-
ingly written in blood.
Barilla rode to the scene on a bi-
cycle and carried a magazine revolver,
which he nearly emptied in a desperate
defense. Persons nearby heard shots
and rushing to the place saw him flee-
ing across the fields. Barilla was found
dead with four stab wounds in his
breast and back and two bullet wounds.

BLACK HAND DEED.

The slayers were evidently frightened
away before they had an opportunity
to rob the victim if that was their
motive, as a large roll of bills and a
gold watch were left. Antonio Del-
marco, a cousin of Barilla, is still
awaiting an investigation.
From several letters found in the
dead man's pockets it seems certain
that Barilla was a victim of a black
hand plot. The police assert that the
same band that hacked and hewed a
man to pieces several months ago and
dumped the dismembered body
wrapped up in oil cloth near the scene
of last night's attack, is responsible
for Barilla's death.

BURGLAR WORKED DURING LUNCHEON

(Special to The Tribune)
SAN FRANCISCO Aug. 13.—While
George Sandman, a barber of 914 Mc-
Allister street, was out at lunch yester-
day a bold and clever burglar opened
his front door with a pair of keys and
carried away everything of value in
the place, including razors, knives and
sellers as well as several boxes of soap.
Sandman reported the affair to the
District station and this morning
Detectives Conlan and Muckey cap-
tured Joe Morris in a convict trying
to dispose of some of the plunder on
the water front.
He at first denied that he had com-
mitted the burglary, but after being
sweated, finally broke down and ad-
mitted it.
He was booked on a charge of bur-
glary.
